

NEW AUSTIN WORKSHOP: REMOVING THE BARRIERS TO A VISIONARY LIFE

* * *

EXPLORING OUR POTENTIAL AS HUMAN BEINGS IN THE 21st CENTURY

Austin, TX (PRWeb) December 1, 2006 -- In a time when many are frustrated, overwhelmed and resigned about the problems we face in the world, new methods for thinking and communicating "at the level of vision" promise hope.

This Sunday afternoon, December 3rd from 1-6pm, 30 Austin change agents will gather to learn new visionary thinking methods, developed by Michael Skye, founder of the Vision Force Academy.

Best known for his iStand Experience (or "Vision Force Boot Camp"), a high-level leadership training, Skye is a passionate local educator who believes everyone has the capacity to live as a visionary and "be the change" in today's world.

Skye, having recently witnessed change agents around the world successfully applying his new methods, is extending an open invitation to his fellow Texans. "Anyone who attends this event will experience natural methods of visionary thinking," methods which Skye says, "have often been obstructed by formal education and training."

Participants will discuss a global context for why we need a world of visionaries, and what it means to the individual participant. Oliver Doyle, a Canadian attendee of a similar Vision Force workshop, had this to say, "I do not think you can attend this workshop & leave without changing your thinking and wanting to reexamine how you've been thinking and acting up to now."

Tickets are \$35 in advance, \$45 at the door. Those wishing to attend should visit <http://www.VisionForce.com/workshop> and register in advance on-line to guarantee a seat.
